

## LEAD FOR DELAWARE

### ASPIRING SCHOOL LEADERS ENTER THEIR 2ND YEAR OF THE LFD PROGRAM

After their first full year of engaging in rich discourse and thoughtful discussions virtually, we welcome the 6th cohort of Lead For Delaware to their **first** in-person seminar this past Saturday. Over the next 10 months, these leaders will push themselves to create equitable systems that work for all kids, they will analyze how successful organizations operate, and gain the knowledge and resources required to lead schools effectively.

*"I just wanted to say how invigorating today was for me professionally. Thanks for a great start to Year 2!"*  
-LFD 6

### LEAD FOR DELAWARE RECRUITMENT

Do you know someone who is ready to expand their reach beyond the classroom?  
Do you know someone who is ready to deepen their impact?  
Do you know someone who should be in position to advance equity through transformative leadership?

We are here to get aspiring principals to and through the training and certification necessary for school transformation. At Lead For Delaware, we believe that equity-focused leaders transform schools and the communities in which they sit. As such, we are recruiting for our 7th cohort of aspiring leaders.

Lead For Delaware, an equity-rooted and soft skills-based leadership development and certification program provides a learning experience that exposes leaders to themselves and the broader practices of high-performing leadership, specifically for challenging schools.

**If you are or know someone who is ready to take their mission and passion to the next level, please pass this along!**
